

DIYA CHAUHAN

UI UX Designer and Frontend Developer

+91 98985 06910 • diyachauhan1405@gmail.com • linkedin.com/in/diya-chauhan14 • Ahmedabad, GJ, India

Summary

Frontend Developer and UI/UX Designer with hands-on experience across the full product pipeline, from user research and wire framing to building responsive, production-grade interfaces in React.js and Next.js. Comfortable owning a feature end-to-end; translating Figma designs into pixel-accurate, accessible, reusable components. Immediate joiner, ready to contribute from day one.

Education

U.V. Patel College Of Engineering, Ganpat University
Bachelor's, Computer Engineering

Kherva

08/2021 - 05/2025

Experience

WildMind AI

Ahmedabad, GJ, India

UI UX Designer and Frontend Developer

08/2025 - 07/2026

- At WildMind AI, I design and develop intuitive, scalable user experiences for a generative AI platform, translating complex AI workflows into seamless, user-centric digital products.
- I work across the full UI/UX process—from user research, wireframing, and high-fidelity prototyping to building responsive, performance-optimized front-end interfaces
- Developed generic, reusable components using React.js and Next.js, leveraging modern UI libraries to ensure responsive design, accessibility compliance, and high code reusability, resulting in faster and more efficient project delivery

Vnnovate solutions pvt ltd

Ahmedabad, GJ, India

UI/UX Intern

01/2025 - 06/2025

- Led the redesign of the official Vnnovate Solutions website, driving a strategic UX transformation to enhance usability, visual consistency, and overall user engagement.
- Created high-fidelity prototypes in Figma focusing on modern aesthetics, usability, and responsiveness
- Developed responsive frontend layouts using HTML, CSS, and Bootstrap without custom CSS
- Improved website structure and user flow to enhance engagement and performance

Vnnovate solutions pvt ltd

Ahmedabad, GJ, India

Python Development Intern

12/2023 - 01/2024

- Developed a facial recognition system using OpenCV, Python, and Firebase
- Integrated core libraries, including CVZone, to enhance system performance, streamline computer vision workflows, and improve application efficiency.
- Successfully completed the project, showcasing strong technical skills
- Python, OpenCV, CVZone, Firebase, NumPy, MediaPipe, Pillow, and other Python libraries.

Figma · Wireframing · Prototyping · User Research · User Flow · Information Architecture · Design Systems · User Interface Design · User Experience Design · Interaction Design · Responsive Design · HTML5 · CSS3 · JavaScript · React.js · Next.js · Bootstrap · Tailwind CSS · Git · GitHub · REST APIs · .

Projects

FLYBIT Dynamics UI/UX Designer & Frontend Developer

- Designed and developed the official website for FLYBIT Dynamics, an Ahmedabad-based drone light show company, translating brand and event-showcase requirements into a responsive, visually polished web experience from Figma design through production code.
- Owned the end-to-end UI/UX and frontend build, including service pages (weddings, corporate events, festivals), city-specific landing pages, and a blog/portfolio section ensuring consistent design language and cross-device responsiveness.
- Built a conversion-focused, brand-forward site architecture highlighting drone show formations and past events, contributing directly to the company's digital presence and client inquiry funnel.

IncSmart

- Designed and developed a corporate website for IncSmart Technologies, an IoT and energy management solutions company, showcasing their product portfolio (IoT gateways, smart energy meters) and service offerings.
- Created a responsive, user-friendly interface to effectively communicate the company's brand, products, and services to potential clients across sectors like warehousing, railways, and hospitality.
- Translated business requirements into a functional web design, improving the company's digital presence and online visibility.

Certifications

- Python Computer Vision – Vnnovate Solutions Private Limited, Issued 31 January 2024
- Circuit Assembly – U.V. Patel College of Engineering, Issued 14-15 March 2024
- PRINT FUSION 2K24 – U.V. Patel College of Engineering, Issued 14-15 March 2024
